

## The Ethics of Jesus Kingdom Part 2: A Greater Focus

The Internet is such a great place to hide - to pretend to be more than we are. Facebook is bad enough, but dating sites like OkCupid and Match.com are some of the best places to fashion our own avatars. An avatar is the alter ego we want others to see and to know us by. Religion can be another place to hide and develop spiritual avatars by doing religious practices for show - things like public prayer, living by our titles and referring to the good things we have done at just the right moment. This was what Jesus hated most about the Pharisees who were considered by many to be the most committed of all the religious groups in his day. The Pharisees were a lay movement that rigidly practiced Jewish law. They even followed rules surrounding the law to protect it and keep them from breaking it. This is how they appeared to be so devoted. But it's also why they came into such conflict with Jesus – because Jesus saw right through their pretense. They practiced their right living before men instead of God. When religious practice, in spite of our poverty of spirit, bubbles up from God's blessing we are living from the new self being formed by God instead of our self-made avatars fashioned for the attention and praise of men. This is the spirituality of the kingdom – spirituality from the inside out!
