

Discipled By Matthew! A Great Disciple?

We switched from Comcast back to AT&T U-Verse for our cable, internet and phone service recently and with that comes the hassle of syncing everything up and making sure the remotes all work. I started to try to wrap my mind around all the changes and quickly went from the more detailed instruction book to the quick set up guide with the pictures and graphics. Then, the technician sat me down and went over everything. He set up my remote, got me registered on the new account and walked me through the entire process. Some things are so complicated that it helps to have a guide for the journey.

Being formed in Christ is like this. Life in and through Jesus is so different than our past estranged life from God that we need someone to help us sync up with Christ. To live life as Jesus meant for us to live it – it takes an instruction book (Bible). But beyond instruction, we need real tech support to help us with the new installation (life in the Spirit), to explain the various components of our walk with God (spiritual disciplines) and what to do about problem solving (trouble shooting). Discipled's are spiritual tech support – people who come along side of us to help explain the Christian life through the lens of their own life journey. They know how to encourage, unpack and help solve the mysteries of our new life in Christ because they've been on the journey for a while. Being discipled by another devoted follower of Jesus is like having our own personal tech support on the journey from death to new life in Christ.
